Better than expected

The only issue I have is that the accuracy of the listing downplays how wonderful this place is. Do not delay. This is a beautiful, clean, safe property in the perfect location. Having been in properties all over the country, this property ranks on the top. The hosts are ideal. Stay with confidence.

Wow in Central Park!

My wife and son (8) throughly enjoyed our stay at the carnegie suite! It's a mixture of hotel with private condo feel. Everything you need in one location plus a 1 minute walk to central park, 3 minute walk to subway station, and 12 minutes to timesquare. This place has it all! Quiet, cozy, and fun!

A New Year's Dream

The Carnegie Suite was a dream come true! My boyfriend and I stayed there for our New Year's Eve trip and it was the most idyllic place to come back to every day. The apartment is stunning (quite literally from floor to ceiling) and there were so many cozy places to relax and unwind. The space was so photogenic, warm, and welcoming that we didn't want to leave! I felt like I was living in a New York movie fantasy. We really appreciated the nice amenities such as the kitchen, access to a full gym with a steam room and sauna, and being right across the road from the iconic Central Park. The bed was also so comfortable and we loved the custom frame TVs that looked gorgeous in the space and were a breeze to operate. One of my favorite things was making coffee in the room every day and playing with the provided chess board! We really hope to return and can see ourselves enjoying the luxury of this suite in any season!

We absolutely loved this place!

This apartment is so luxurious and beautiful. The unit itself is an updated step back into time, with thoughtful touches in every space. The rooms were very quiet despite being in the heart of midtown and you couldn't ask for a better location, with Central Park across the street. We're already looking forward to our next trip!
